

Flex Tooth Rake Attachment Sand Pro® 3040/5040 Rear Attachment

EXCEPTIONAL GROOM. GENTLE ON TURF AND LINERS.

The QAS (Quick Attach System) Flex Tooth Rake offers productivity and performance advantages to your bunker grooming. This new Sand Pro attachment features a flexible rubber groomer delivering an exceptional groom while being gentle on turf and bunker liners. This means you can groom more of your bunker with your Sand Pro and less hand raking – an instant productivity gain. The sectional groomer follows contours to provide consistent grooming throughout your bunker's slopes and undulations. Through the Sand Pro's exclusive QAS mount system, the Flex Tooth Rake is easily installed or removed without tools making your Sand Pro one of the most versatile machines in your fleet.

Sand Pro® 5040
