Greensmaster 1026 (fixed)

Greensmaster Flex™ 1018

Greensmaster Flex™ 1021

## Greensmaster® 1000 Series & Greensmaster Flex™ Series – Engine Power

**Telescoping Handle** – Accommodates operators of different heights, adjustable to 5 distinct positions.★

**Handle Isolation Mounts** – Helps eliminate variations in height-of-cut caused by walking strides.★

**Intuitive, Precise, Easy-to-Access Controls** – Simplifies operation and improves cutting performance & consistency.

**Dual Function Bail** – Combines safety and operational efficiency.★

**High-Low Clip Rate Lever** – Easily changes clip frequency in the field. Additional, multiple easy-to-configure clip settings allow superintendents to customise frequency of clip for any playing condition.

**Durable Gear Drive Transmission** – Provides best-in-class transmission life expectancy.

**Proven – Now Detachable - DPA Cutting Units** – Easily switch between an 8, 11 or 14-blade **EdgeSeries™** Reel options. (14-blade option only for 1018/Flex 1018; 11 or 14-blade options for 1021 & Flex 1021; 8 or 11-blade options for 1026) ★

**Modular Sub-Assembly Design** – Makes service and repairs simple and quick.

**Swing-Axle Green to Tee Mower Conversion** – Quickly convert from a Greens to a Tees mower. ★

**Backlapping Option** – Onboard backlapping of each greensmower, no additional motors or bench tools required.\* ★

★ **PATENT-PENDING** \*Optional backlapping feature available on 1021 and 1026 models only.

## EdgeSeries® Reels

## Greensmaster TransPro® 200

**Compatibility** – Current Fixed and Flex models compatibility, including most older model greens mowers.

**Improved Mower Retention** – Front roller pocket retainer with adjustable positions for securing mowers.

**Improved Loading Angle & Hitch Design** – Simplified operator loading/unloading for greater productivity.

## Greensmaster TransPro 80

- Safely transport 1 walk greens mower
- Rail ramp simplifies operation and reduce loading time by up to 50% – no need to mount mower transport wheels
- Large trailer tyres to cushion ride and help protect mower during transport

# Greensmaster® Riding Greens Mowers

**NEW**

## Greensmaster eTriFlex™ Series

Welcome to a wonderful new world of quiet precision and zero hydraulic fluid. With all-electric components for traction, steering, lifting and cutting, these EnergySmart models are operationally-friendly, provide noticeable noise reduction, capture meaningful operational cost savings, and include design enhancements that raise the standard of cutting performance even higher. Building on the proven, world-benchmark TriFlex™ platform, the eTriFlex models are enhanced with the Radius Dependent Speed (RDS™) System which means that the "Triplex Ring" effect is virtually eliminated and the aesthetics and playability of greens are substantially improved. And with features that improve versatility, simplified service and even more productivity, superior cutting performance is just the beginning.

### ELECTRIC POWER

- Greensmaster 3360 All-Electric Engine/Generator: Smooth combination of a 10,4 kW (14 hp) twin cylinder Kawasaki® petrol engine and Battery Assist Technology that saves up to 20% on fuel and provides quiet operation.
- Greensmaster 3370 All-Electric Battery Powered: Lithium-Ion 48-volt system that can mow up to 20 greens on a single charge while providing quiet operation, even after the 4th season.\*

### INFOCENTER™

Provides advanced diagnostics on all electrical systems for enhanced productivity and keeps the operator fully in command.

### ELECTRIC POWER STEERING

Precise and consistent directional control at the fingertips, without the whine or inefficiency of hydraulics.

### ELECTRIC LIFT

Speed-dependent timing aligns front and rear cutting units when they contact the turf to minimise clean-up. No hydraulic fluid, no leaks, no worry.

### ELECTRIC DRIVE TRACTION

Solid, smooth, and smart optional 3-wheel drive traction featuring our patented Radius Dependent Speed (RDS™) System. While individual wheel speed is digitally controlled during turns for optimised perimeter cuts, the cutting unit clip rate is consistently maintained regardless of machine speed or turn angle. Add to this the proven Lift-in-Turn feature which provides a level cut from side to side and achieves ultimate precision, all without hydraulic fluid.

### ELECTRIC DRIVE CUTTING UNITS

Featuring excellent DPA cutting units with EdgeSeries® reels mated to fully electric motors for superior after cut appearance, without hydraulic fluid. These highly efficient, consistent, and durable electric reels provide enhanced cutting performance through the Dial-in-Clip system.

## Radius Dependent Speed (RDS) System for Optimal Perimeter Cut

**Clip Rate:** Maintains consistent cutting unit clip rate in turns on each individual reel

**Wheel Speed Control:** Individual wheel speed control during turns for reduced wheel scrubbing and turf wear

\*Based on 300 mowing days per season and 650,3 square metre (7,000 square foot) greens.

# Greensmaster® Riding Greens Mowers

## Greensmaster® TriFlex® Series

The Greensmaster TriFlex and TriFlex Hybrid riding greens mowers deliver the productivity of a rider and the precision of a walker. Combining the innovative, Double A-Arm Suspension System with industry-leading Flex technology, the cutting units float freely over even the most difficult terrain resulting in a superior quality of cut and after cut appearance.

- INFOCENTER™ (HYBRID MODELS)**  
 Easily customise clip and operational settings.
- DOUBLE A-ARM™**  
 Combined with Link-System Suspension for superior contour-following.
- TOOL-FREE, QUICK-CHANGE CUTTING UNITS**  
 Remove cutting units in seconds for sharpening, repairs, configuration changes, and adjustments.
- LIFT-GATE FOOTREST**  
 Provides easy access to the centre cutting unit for adjustments, basket removal/replacement, or cutting unit exchange for configuration changes.
- PETROL OR DIESEL ENGINE POWER**  
 15,6 kW (21 HP) petrol or 18,5 kW (24.8 HP) diesel engine.
- LARGE, BALLOON-STYLE TYRES**  
 Ensure equal pressure on the turf to minimise tyre marking and reduce scuffing in turns.
- ALL-ELECTRIC REELS (HYBRID MODELS)**  
 Highly-efficient electrical reel motors with Dial-In-Clip for enhanced cutting performance and clip control.
- PROVEN DPA CUTTING UNITS WITH EDGE SERIES® REELS**  
 EdgeSeries® Reels provide efficiency, long life, and superior after cut appearance.

## Greensmaster® 3150-Q/3250-D

The Greensmaster 3150-Q and 3250-D are distinguished for their field-proven performance and exceptional quality of cut. Equipped with patented DPA cutting units and EdgeSeries™ reels for a superior cut and minimal maintenance. With convenient controls for easy operation, and ample power to handle any application – it's no wonder these classic models have been trusted over the years to deliver the performance golf courses demand with a putting surface that exceeds expectations.

# Trim & Surrounds Mowers

## Toro® Trim & Surrounds Mowers

When you need a reel trim mower whose versatility, performance and after-cut appearance is second to none, the Toro® Reelmaster® 3100-D is the clear choice. With Sidewinder® technology, Toro pioneered the ability to shift cutting units on the fly from side-to-side, reaching turf areas that other mowers simply cannot. It's ideal for mowing around greens and bunkers where conditions can be challenging but when precision control is an absolute must. Add a triplex chassis configuration and Toro's exclusive EdgeSeries™ cutting units and you get an exceptional performing, highly maneuverable reel trim mower that consistently delivers a superior after-cut appearance, day after day.

### Reelmaster 3100-D Sidewinder

The Reelmaster 3100-D is a unique triplex mower designed for superior performance on the golf course. The optional Sidewinder cutting units can be shifted right and left, on the fly, for increased reel overhang and less turf wear-and-tear.

EdgeSeries® Reels

### Groundsmaster® 3200/3300

The Groundsmaster 3200/3300 delivers unparalleled productivity. Featuring a powerful 27,9 kW (37.4 hp) or 18,4 kW (24.7 hp) engine, CrossTrax® all-wheel drive and legendary Groundsmaster decks, these products make quick work in even the toughest terrain while delivering an exceptional quality of cut. Year-round versatility with a variety of seasonal attachments.

### Groundsmaster 3500-D Sidewinder

The Groundsmaster 3500-D, with Toro's innovative Sidewinder cutting system, shifts the Contour Plus™ cutting units from side-to-side to cut hard-to-reach turf. The 3500-D features a 173 cm (68") width of cut and full time 3-wheel drive provides superior operator control.

### ProLine H800

The Toro ProLine H800 direct collect rotary mower with high-lift dump mechanism was engineered for unmatched collection performance. Featuring a powerful Yanmar® 18,4 kW (24.7 hp) diesel engine; fast groundspeed up to 15 km/h (9.3 mph); our innovative Smart Airflow direct collection design; and 195 cm (77") high-lift system that dumps clippings directly into truck beds or trailers, the ProLine H800 can mow, collect and dispose of up to 1,2 hectares (3 acres) of material per hour!

# Reelmaster® Fairway Mowers

## Reelmaster 5010-H

The Reelmaster 5010-H gives you the power and performance you want with the fuel efficiency and reliability you need. Through its exclusive **PowerMatch™** system, the Reelmaster 5010-H utilises the power of a diesel engine in combination with a battery pack to supply over 29,8 kW (40 hp), but only when conditions require. Electric motors on the cutting units, which feature low-friction seals and bearings, improve performance and reduce power requirements. The result is increased fuel efficiency, quieter operation, significantly fewer hydraulics and an unmatched quality-of-cut with **EdgeSeries™** reels.

**Exclusive Hybrid Drive System**  
– PowerMatch technology enables the Reelmaster 5010-H to seamlessly match the power generated to the power required for traction and cutting based on the mowing conditions.

EdgeSeries™ Reels

[toro.com/RM5010H](http://toro.com/RM5010H)

## Reelmaster 3550-D

The Toro® Reelmaster 3550-D floats effortlessly over contours in fairways and green surrounds. With a productive 210 cm (82") cutting width, our new **EdgeSeries™** reels, turf-friendly tyres, the superior traction of a Series/Parallel 3-wheel drive system, and a weight of less than 907 kg (2,000 lbs.), the Reelmaster 3550-D is engineered to make a big impression...without leaving one.

## Reelmaster 3555-D/3575-D

These fairway mowers are 20% lighter and much more compact than traditional fairway mowers from Toro and others. The lighter weight combined with a highly productive 254 cm (100") cutting width, the improved manoeuvrability of a 3-wheel drive compact chassis design, **EdgeSeries** reels and several other key features – take this fairway mower into a class of its own.

Reelmaster 5410/5510/5610

## Reelmaster 5010 Series

Unrivaled productivity with a 254 cm (100") cutting width, superior after-cut appearance, **EdgeSeries** reels, and simplified maintenance. Discover these and any of the hundreds of other reasons why the top golf courses in the world choose the Reelmaster 5010 series for picture perfect fairways and unmatched value.

## Reelmaster 7000-D

The Reelmaster 7000-D is a multi-use, heavy-duty reel mower designed for productivity and performance in the most extreme conditions. This mower has it all – power, productivity of a maximum 320 cm (126") cutting width and provides a superior aftercut appearance. Significantly reduce the time needed to scalp in preparation for overseeding and in verticutting operations.

Reelmaster 3555-D

## EdgeSeries® Reels

Toro EdgeSeries reels represent the next generation of cutting quality and durability with enhanced edge retention. In addition to new reel materials, the **EdgeSeries** incorporates new reel geometry and changes in the manufacturing process that result in a more consistent aftercut appearance.

[toro.com/edgeseries](http://toro.com/edgeseries)

Reelmaster 7000-D

# Groundsmaster® Rough Mowers

## Groundsmaster 1200

This pull-behind rotary mower delivers an unparalleled combination of productivity, durability and superior cut. It features a 370 cm (144") width of cut and can mow up to 4 hectares (9.8 acres)\* per hour. Remaining true to Groundsmaster's unmatched reputation of durability, the 1200 was designed for years of reliable mowing. Its spindles are the same as Toro's large rotaries and capable of withstanding the roughest conditions. This mower delivers an evenly-cut, professionally-striped look to large open spaces.

## Groundsmaster 4000-D

The three-deck design of the Groundsmaster 4000-D provides superior ground-following ability for excellent quality of cut results. Additionally, the incredible productivity that comes with varying the cutting width, from 335,2 cm (11') to 243,8 to 152,4 cm (8' to 5') on-the-fly, along with nimble, zero uncut circle capability, allows maintaining roughs from tight trim areas to larger areas with one machine.

## Groundsmaster 4100-D

The 313,9 cm (10.3') continuous deck gives operators immense visibility and control over the mowing process. Not only is the 4100 series good for wide-open areas, it also allows for excellent trimming under bushes and trees while keeping the operator's eyes looking forward.

## Groundsmaster Contour Family

Since 1973, Toro Groundsmasters have been proven on the world's top golf courses, delivering consistent, clean cuts and breathtaking roughs. But we're not satisfied. That's why Groundsmasters are engineered with innovations like Sidewinder® cutting units for precise trimming, CrossTrax® all-wheel drive for superior traction, and SmartCool™ for unsurpassed cooling performance. No matter which Groundsmaster you choose, you'll get the legendary performance that makes this an unbeatable value.

# Workman® GTX Utility Vehicles

## More Comfort. More Power. More Versatility. More Control.

The Workman GTX is a work vehicle that boasts an unequalled combination of comfort, power, utility and control, making it simply superior to the competition. Its increased power, improved steering and exclusive suspension and braking systems make the Workman GTX the most versatile, practical and comfortable utility vehicle in its class. With its narrow 120 cm (47") width, petrol or electric power, and hundreds of configurable options, attachments and seating choices, running to different jobs around the course has never been so productive. So whether you are setting cups, checking on irrigation, or moving people or materials, the Workman GTX has the power and versatility to get the job done right.

**Steel Cargo Bed  
Now Available!**

Visit [toro.com](http://toro.com) or call your local distributor for a full list of available accessories and attachments.

### Features:

- **Versatility** – The Workman GTX is adaptable to almost any task. Two, four or six-seat configurations come with bench or bucket seats. Front and rear attachment points for garbage cans, hose reels or walk spreaders free up the bed for more hauling capacity. Steel 120 cm (48") and 180 cm (72") flat beds are also available.
- **Power** – Whether you choose 429 cc EFI petrol or 48-Volt electric, power and performance comes standard. An improved power to weight ratio boosts payload capacity and productivity.
- **Control** – An automotive-grade rack and pinion steering system provides more control and lowers steering effort, while operating loaded or empty. The Workman GTX also features class-exclusive hydraulic disc brakes. Minimal maintenance, no cable adjustment and less pedal force than mechanical cable brakes affords the Workman GTX reliable and consistent stopping power.
- **Suspension** – Coil-over shocks on all four tyres deliver greater suspension travel and adjustability resulting in a smoother ride and minimised operator fatigue. It is also the only vehicle in its class to feature a split frame to further increase ride comfort.
- **Durability** – Virtually unbreakable composite exterior components and a powder coated frame and underbody give the Workman GTX superior durability. Run it hard, day after day.

# Workman® GTX Utility Vehicles

## Workman GTX Lithium-Ion Lifted & GTX EFI Lifted

The Workman GTX EFI and Workman GTX Lithium Lifted models each provide new features while maintaining the comfort, control, power, versatility, and ease of maintenance that sets the GTX apart.

**Increased Ground Clearance** – Improve your ride over uneven and rough terrain while also avoiding debris with an additional 7.6 cm (3") of ground clearance.

**Turf Friendly Tyres** – Protect your turf and ride in style with 55.8 cm (22") turf tyres and modern 30.5 cm (12") aluminium wheels.

## GTX Lithium-Ion Power

**Cargo Capacity** – At 364 kg (800 lbs), the GTX Lithium provides you with the largest cargo capacity of any lithium-ion vehicle in its class.

**Maintenance-Free** – Lithium-ion packs require no maintenance which lets you spend less time checking batteries and more time checking tasks off your to-do list.

**Extended Battery Life** – Lithium-ion battery packs give you the power for long days and reduced charging time for short nights.

**Onboard Charger** – No need to keep track of your charger, it is onboard and ready to be connected to any standard power outlet anytime, anywhere.

**Reduced Weight** – The GTX Lithium is 26% lighter than a traditional electric vehicle, making it nimble while still packing plenty of all-day power.

Batteries require no daily maintenance.

## Workman UTX Series

The Workman UTX is a straight-forward, no-nonsense, 4-wheel drive utility vehicle built to stand up to the toughest tests without compromising performance. With standard commercial-grade components, the highest payload in its class and a proprietary speed control system, it's designed for the rigors of a long work week, not a few hours of recreation on the weekends. The Workman UTX has the muscle to haul a ton while still maintaining the ability to regulate speed and sound in sensitive areas. To raise the standard further, every Workman UTX features an integrated plow mount, power steering, turn signals, brake lights, and a spray-on bed liner.

**Commercial Grade Tough** – With a rock-solid, high-strength steel frame, integrated plow mount, selectable 4WD with front and rear differential locks and oversized shocks, bearings and bushings the Workman UTX is up to any challenge.

**Capable of Doing Any Job** – A ton (2,000 lbs.) of towing, 25% more cargo capacity than competitors and two standard 5 cm (2") receivers (front and rear) gives the Workman UTX the means to tackle any job.

**All-Day & All-Season Comfort** – 2 or 4-passenger models make sure you have the room for you and your crew and a climate controlled cab keeps them comfortable in any conditions.

**Precision Control** – A proprietary system allows for the perfect amount of power to be applied to the job, no matter the desired ground speed. This can mean lower RPMs, and with it lower fuel consumption and sound, or higher RPMs for more power to push snow or haul a heavy load.

**Versatile Performance** – The Workman UTX is made to work in multiple environments. It's road ready with standard LED headlights, turn signals, hazards and brake lights and built to handle snow and ice like a BOSS®.

# Workman® MDX & HD Utility Vehicles

## Workman HD Series

Get more work done with the versatile Workman HD series utility vehicles. Industry-leading towing capacity of 1587 kg (3500 lbs.) allows you to safely tow a ProPass 200 or Topdresser full of sand. Four-wheel hydraulic brakes and payload of up to 1497 kg (3300 lbs.) enables you to heap it full of sand, sod or dirt without hesitation.

The DeDion rear axle with I-beam isolates and protects transmission, engine and main frame from heavy loads. Independent, double A-frame front suspension provides exceptional ride quality and comfort and the independent suspension absorbs rough terrain – not the operator.

### Model Options:

- HD – Two-wheel drive, Kohler® 674cc air-cooled
- HDX – Two-wheel or four-wheel drive Kubota® 962cc liquid-cooled EFI
- HDX-D – Two-wheel or four-wheel drive Kubota 898cc liquid-cooled diesel

## Workman MDX Series

Superior ride quality is achieved through independent front suspension, coil over shocks, and an extended cab design. Active in Frame™ twister joint improves traction and stability while minimising turf damage. Combine all of these features including a payload of up to 750 kg (1650 lbs.) and four-wheel hydraulic brakes letting you to get more done safely in less time with less fatigue.

### Model Options:

- MDX – Briggs & Stratton® 480cc
- MDX-D – Kubota 600cc

Visit [toro.com](http://toro.com) or call your local distributor for a full list of available accessories and attachments.

# Outcross® 9060

## Outcross 9060

The Outcross 9060 is an invaluable tool in the long-standing battle Turf Managers face to “do more with less.” This machine is a time-saving, easy-to-use, multi-purpose, turf-friendly workhorse that brings year-round flexibility, consistency and productivity to turf maintenance operations. Get ready to do more. The Outcross is the first machine of its kind to be purpose built for the management of fine turf.

Its balanced design, four-wheel steer, and four-wheel drive make it extremely gentle on turf. Keep busy year-round by utilising Outcross's 3-point hitch, drawbar, or front loader. Mow grass, spread fertiliser, load sand, haul a pallet of sod, aerate, topdress, remove snow and ice, blow leaves, prune roots, spread seed, tow a trailer, sweep a path, chip wood, and much, much more. Intuitive automotive-style controls and one-time parameter setup keeps operations simple and efficient.

# Multi Pro® Sprayers

## Multi Pro 5800

Combines advanced sprayer technology and innovation with optimised performance accuracy, aggressive agitation and faster response times to consistently and accurately apply desired spray rates. Highly productive work attachments and accessories save time and money by simplifying the mixing and spraying processes, and saving on labour and chemical costs.

## Multi Pro Accessories

- **ExcelaRate™ Rate Control System** makes achieving precise application rates simple and repeatable. Step-by-step calibration and memory of your two most commonly used rates saves time and increases accuracy. Developed by Toro exclusively for turf and standard on all Multi Pro 5800 machines!

- **NozzAlert™ Nozzle Flow Monitoring System** brings peace of mind to spray applications by alerting the operator to nozzle flow disparities caused by totally or partially blocked, broken, missing, or worn nozzles. From the comfort of the operators seat, a simple display gives visual and optional audible alerts when flow disparities are detected, allowing the operator the opportunity to correct before mis-application and resulting turf damage.

- **Cleanload™ Eductor** is an on-board mixing station for safely loading any product without the need to first mix a slurry.
- **Fresh Water Rinse Kit** simplifies and automates the triple-rinse process, saving hours upon hours of clean-up time.
- **Covered Boom Shroud** mounts to existing boom and minimises spray drift in breezy conditions.
- **Ultra Sonic Boom Kit** automatically maintains optimal boom height in undulating turf conditions.

**Also Available:** Enclosed Cab, Sunshade Canopy, Electric Hose Reel, Pro Foam Marking Kit, Rear Work Light Kit and Single Spray Nozzle Kit.

## Multi Pro 1750

Earning the market leader position in turf vehicle sprayers comes from listening to what your customers truly want in a sprayer. Toro's 662 litre (175-gallon) dedicated vehicle sprayer is the culmination of hundreds of hours of insightful customer input. This proven sprayer uses an advanced spray system design, combined with cutting-edge sprayer controls and productive vehicle features to create the most advanced, efficient and accurate sprayer on the market. From aggressive agitation, faster response, consistent and accurate application rates, and intuitive rate set up, this sprayer has it all.

## Multi Pro WM

The Multi Pro WM advanced spray system for Toro's Workman® HD or the HDX utility vehicle leverages the reliable system design found on the Multi Pro 1750, and offers flexibility not found with dedicated spray vehicles. Considerable effort went into making the Multi Pro WM easy to install and easy to remove, allowing users to convert their spray vehicle to a topdresser vehicle for example, or simply back to a utility vehicle with a bed. All of the same popular attachments found on the dedicated sprayers are also available for this 757 litre (200-gallon) bed-mounted sprayer.

# GreensPro® 1260 Greens Roller

## GreensPro 1260

The GreensPro 1260 delivers exceptionally smooth and fast greens with a superior operator platform. The split, contour following smoothing rollers perfectly follow undulations delivering exceptionally smooth putting surfaces. The operator platform is fully adjustable for unmatched comfort and operator safety. The new transport system featuring a QuickLatch coupler will make transporting from green to green unbelievably quick and simple.

- Direct drive traction roller design dramatically reduces maintenance with improved reliability
- Offset smoothing rollers deliver unmatched roll consistency and will not leave a ribbon of unrolled turf
- Fully adjustable operator platform offers comfort and safety
- Independent, articulating smoothing heads follow undulations, preserving natural contours
- Remarkably light tongue weight makes mounting and dismounting easier than ever
- Industry-leading roll-to-transport conversion can easily be done regardless of operator size

Offset smoothing roller design for uniform greens appearance and playability

# Specialty Mowers

## HoverPro® Series

The Toro® HoverPro is perfect for maintaining turf on steep slopes, tight undulations, areas near water or bunker lips. A light footprint makes the HoverPro easy to operate while its rugged design ensures years of quality performance.

HoverPro 450

HoverPro 550

## Cutting Systems

Nylon Wire Cutting System  
HoverPro 450

Steel Cutting Blade  
HoverPro 550

## ProStripe® 560

The ProStripe 560 combines exceptional turf striping with the simplicity of a walk power mower. It is the ideal mower for striping smaller turf areas and can easily manoeuvre into tight locations.

The unique split rear-roller with integrated differential enables tight turns with minimal risk of turf damage.

# Sand Pro® Bunker Rakes

## Sand Pro 3040/5040

It's time to demand more from your bunker rake. With the exclusive Quick Attach System™ (QAS) offering tool-free, quick attachment change outs and over 25 valuable attachments, the Sand Pro 3040 and 5040 are versatile utility vehicles with as many uses outside the bunker as in it. The Sand Pro 5040's optional front QAS provides added flexibility and exclusive steerable front attachments for surgical precision. The Toro Sand Pro keeps bunkers in tournament condition every day.

The **QAS Flex Tooth Rake** offers productivity and performance advantages to your daily grooming. This new Sand Pro attachment features a flexible rubber groomer delivering an exceptional groom while being gentle on turf and bunker liners.

Sand Pro 2040Z

Sand Pro 3040/5040 shown with QAS™ Flex Tooth Rake (sold separately)

## Sand Pro 2040Z

The Sand Pro 2040Z mechanical rake is unlike anything else in the marketplace; a zero-turn mechanical groomer delivering unmatched manoeuvrability and productivity. This unique machine is a daily use bunker rake that will reduce a golf course's labour costs for both mechanical and hand raking of bunkers. The "flex" raking system with the patent-pending "lift-in-turn" feature enables an operator to turn tightly in bunkers without leaving unraked teardrops or tyre marks. The nimble Sand Pro 2040Z will save you valuable time in your workday, improving bunker playability and consistency.

# ProCore® Aeration Solutions

## ProCore 864 & 1298

The same ground-breaking technology that allowed the ProCore 648 to revolutionise greens aeration is available for large-area applications. The precision-balanced coring heads run smoothly, even in the raised position with the PTO engaged. This will save you valuable time in turn-arounds and avoiding ground obstacles. The ProCore 864 (163 cm / 64") and ProCore 1298 (249 cm / 98") deliver exceptional aeration and productivity in an easy to use, robust design.

ProCore 864

ProCore 1298

## ProCore SR Series deep tine aerators

ProCore SR Series deep-tine aerators alleviate subsurface soil compaction, helping to create an environment for turf to thrive. These durable and time-tested products are capable of withstanding the most extreme aeration conditions. From lightweight, precision machines to robust, heavy-duty machines to break up soil on even the most compact surfaces, the ProCore SR Series deep-tine aerators are the ultimate choice for performance and quality.

ProCore SR72

ProCore SR54-S

(Single and dual roller options available on SR54 and SR70)

## ProCore 648s

The ProCore 648s builds on the tremendous legacy of the ProCore 648 by incorporating proven technology and even more innovative features while preserving the time tested design elements that changed the way you aerate. Revised controls improve ergonomics and allow single handed operation. Hole spacing and true tine depth are now set and saved in the InfoCenter.™ The onboard controller is continuously monitoring key operating parameters to improve after aeration turf condition and allow the operator to easily target coring head drop and raise. A tighter turning radius with reduced wheel scrubbing and the ability to easily increase speed during turns increases productivity. Proven reliability, improved performance and exciting innovation - that's what makes the ProCore 648s the new superior choice.

- Improved operational performance resulting in faster return to pre-aeration surface quality.
- Electronically-controlled hydrostatic drive provides additional hole spacing adjustability with improved consistency.
- Higher productivity from easily increasing speed between aeration passes and a tighter turning radius with reduced wheel scrub.
- Integration of new technology allows operators to easily see and target start and end points of each aeration pass.
- Operational parameters, including true tine depth, set and saved in proven InfoCenter.™
- Revised, ergonomically designed controls improve operator experience.
- Utilises all existing tine holders and accessories.

## Debris Equipment

### Pro Force®

The Pro Force delivers impressive air power for fast removal of grass clippings, leaves, divots, aeration cores and other debris from your golf course. A newly redesigned hand-held wireless remote control makes it incredibly easy to use. Rotate the nozzle 360° in either direction, adjust the engine speed up or down, and start and stop the engine with the remote control.

### Rake-O-Vac®

The Rake-O-Vac delivers a clean sweeping environment due to the airflow system that directs the dust downward at ground level. A flex tip reel gently lifts wet or dry debris with an optional broom that works well for sweeping Bermuda grass during scalping operations.

### Pro Sweep®

The Pro Sweep is the fastest way to get your course back in play after aeration. A handheld controller allows the operator to wirelessly control sweeping and dumping of the unit combined with the ability to move the sweeper from tow to offset position without leaving the tow vehicle driver's seat.

## Topdressing & Material Handling

### ProPass 200

Healthy turf starts with consistent topdressing. Now it's easy to achieve your desired spread time after time with the ProPass 200. The ProPass 200 ensures a consistent spread pattern, from light to heavy, every time with a patented colour-coded "drop zone" adjustment system. Just slide the twin spinner assembly into place and you can be sure your turf is getting the optimum treatment. The precisely defined spread area makes it easy to match edge line to edge line with each pass.

Topdresser 2500

Topdresser 1800

### MH-400 Material Handler

Get ready to take productivity to new levels with the Toro® MH-400. This proven workhorse excels at a wide range of tough jobs, from transporting materials to cleanup, construction, daily maintenance, and large area topdressing. If no optional accessories are installed, the MH-400 is the ultimate work trailer. But you can quickly and easily transform it with a swivel conveyor, or the twin spinner attachment which turns the MH-400 into a large area topdresser.

**Genuine Toro Quality**

- **Parts Availability** - Most local distributors deliver parts within 1-2 days.
- **OEM Quality** - Genuine Toro service parts are the same parts used on the original piece of equipment, ensuring maximum performance with less downtime.
- **Unparalleled Customer Service** - Count on dedicated support for your Toro parts needs.
- **Peace of Mind** - With Genuine Toro Parts, you get the right part with the correct specifications. There's no need to wonder if the part will work.

**Toro Titan® Tines Catalogue**

- Over 150 tines in a wide variety of styles and sizes, providing multiple aeration choices
- Coring and solid tines in standard and deep lengths to meet your exact aeration requirements
- Organised by aerator and mount size for easy selection

**Toro Performance Parts**

- Competitive pricing on parts you use everyday
- Full-line of filter MVP Maintenance kits
- Quick and easy to use reference guide:
  - Filters, belts, bearings, tyres, starters and alternators

To best protect your investment and maintain optimal performance of your turf equipment, count on Toro Genuine Parts. When it comes to reliability, Toro delivers replacement parts designed to the exact engineering specifications of our equipment. For peace of mind, insist on Genuine Toro Parts.

# Lynx® Central Control System Overview

## Better Information For Better Decisions

The Toro® Lynx Central Control System was developed specifically to help you address the unique challenges and changing priorities you face every day. With Lynx, you can now have all of your essential irrigation information readily available in one place, conveniently combined into a single, intuitive interface.

### Lynx Mobile Apps

Apps enable you to easily control your irrigation system from your smart phone or tablet. Lynx Mobile Apps offer map and numeric based interfaces for manual irrigation, as well as an easy way to enter or edit GDC module addresses. Available for both iPhone\* and Android\*\* devices.

#### Easy Set Up.

Lynx gives you a fast, accurate way to setup your system to put water exactly where you want it, and then allows you to make edits as your course conditions change.

#### Easy to Use.

Lynx has a distinct user interface that combines all essential data and intuitively presents the information you need at a glance.

#### Easy to Control.

With Lynx, you can take quick, accurate action to effectively control and manage your golf course by providing past, present and future course information from multiple sources into a single, intuitive interface

#### 24/7 NSN® Support.

Toro's exclusive National Support Network provides software and network assistance from experienced service professionals. NSN Connect can be linked directly to the system.

#### Available Anywhere, Anytime.

Lynx gives you the ability to access your irrigation controller from anywhere - simply and securely! Now also through our dedicated smart phone apps!

#### Superior Course Map Editing And Creation

The advanced functionality of the Lynx Central Control System allows you to edit your course map easily, or create your own fully interactive map using a digital image of your course.

#### Integration With Other System Components

Lynx can be seamlessly integrated with field hardware, weather stations, electrical systems, smartphones and much more, including the Toro Turf Guard® Wireless Soil Monitoring System.

#### Comprehensive Reporting Increases Your Productivity

Armed with the thorough reports provided by Lynx, you'll be able to immediately address any irrigation concerns and avoid potential course damage . . . or just move on to other tasks when Lynx lets you know that things are running as planned.

# Field Control Systems – Integrate seamlessly with Lynx®

## LYNX Smart Satellite Control

Provides distributed control and added security via intelligent field controllers with an intuitive user interface. Controllers are placed on each hole to operate a specified number of stations. They work with a central computer but can also be programmed independently for standalone operations.

### Advantages

- Save water and optimise the course - apply the appropriate amount of water with precision calculated to the second.
- Have only the people you want to have access and programme by protecting each satellite with a password
- Monitor your course from each satellite with the new sensor input board
- Current sensing provides protection by monitoring each station output for proper amperage draw
- Wireless or 2-way wired communication options enable flexible system design and installation
- Work faster thanks to the microprocessor which is 15 times faster than the previous model and has the capacity for future capabilities
- Use the satellite easily because of the larger and illuminated display and the availability of its primary functions in English, Spanish, French, Italian, Chinese, Korean and Japanese.

## LYNX Smart Module (LSM)

Provides direct control via intelligent modules installed inside or near each sprinkler

### Advantages

- All system components are below ground which helps maintain course aesthetics
- Have the lowest cost system option due to the reduced amount of wire
- The continuous 2-way communication and automated diagnostics ensure the system integrity
- Have the best-in-class broadband lightning protection
- Expand the system easily by adding modules to the wire path
- Lynx Smart Hub provides additional features and benefits

*Toro INFINITY and FLEX™800 Series sprinklers can be ordered with integrated LSM modules.*

## The Best of Both Worlds: LYNX Smart Hub

This new type of field controller combines the flexibility of satellite controllers with the cost savings of a 2-wire/decoder system.

- Simplified installation and maintenance
- Provides infield manual operation or troubleshooting
- Runs automatic programmes
- Best in class broadband lightning protection
- Two-way communication
- Easily expandible

Each Smart Hub can control up to 1,000 sprinklers, compared to 64 per traditional satellite controller.

# Toro® Golf Sprinklers

## Pick the Right Players

One of our greatest areas of expertise is golf course irrigation. A Toro sprinkler is always packed with ideas. Make your work count over and over with the sensational INFINITY® sprinkler family with Smart Access®.

### For Demanding Areas

Tackle every obstacle on the golf course – Wind, trees, bunkers, mounds, etc.

### For Moderate Areas

Apply water to exactly the right spot at exactly the right angle; don't be limited by slopes or branches.

### For Plain Areas

Where a consistent and reliable full-circle water supply is needed, these sprinklers do an outstanding job.

### For Tees and Their Surroundings

There are areas on a course that are best supplied by block systems. Get the best from Toro® for this task.

# Toro® Professional Services

## Toro University

Toro is committed to providing you with the information you want, when you want it, and how you want it. That's why we supply learning opportunities and performance support to you in many different ways. Along with a complete selection of printed Service Manuals and Training Guides, we also provide information on CD-ROM, DVD, and on [www.toro.com](http://www.toro.com).

## Toro Financing Solutions

Whether choosing maintenance equipment or irrigation components for a renovation, your Toro representative has experience and is trained to help you look beyond the simple financing of one item to the next, to looking at your longer-term equipment and economic needs. It's not a one size fits all plan. Looking at the total cost of ownership will help you find the right acquisition solution for your course's specific needs. Toro has partnered with the premier golf financing companies in the industry to meet your needs.

## Toro Protection Plus™

To ensure your ongoing success and satisfaction with our products, Toro offers outstanding after-sale support like our exclusive Toro Protection Plus extended protection plan, the industry's most comprehensive protection program. There's no better way to protect your investment and stabilise your budget.
