# PERFORM

## **The better way to ride!**

Yamaha's line-up of golf cars, commercial and personal transport lightweight vehicles enable all customers to perform at their peak. From golfing and leisure needs to facility management and commercial utility, our aim is simple - to create vehicles that add even more quality to our customers' lives and businesses.

From our premium flagship model, the Drive<sup>2</sup> AC Li, throughout the impressive 5-model Drive<sup>2</sup> range, you'll find the perfect choice of electric or quiet, economical petrol golf cars to suit your needs.

For personal transportation and utility needs, our line-up of lightweight vehicles are a great addition to any resort or facility and getting the job done.

## The Yamaha Difference

AC

### AC Electric Motor

The standard AC 3.3 kW and PowerTech AC 5.0kW are widely acknowledged as the most sophisticated and powerful designs in their class. Smooth acceleration powers you up to full speed in an instant and delivers supreme hill-climbing ability with zero emissions.

AGM

### Recyclable Trojan AGM Batteries

The recyclable Trojan AGM battery technology delivers the performance to keep your golf car running strongly through the longest of golfing days, so while the players may get tired, the trusty AGM will always last the course. Maintenance-free and end-of-life recyclability, it is great for course owners and the environment.

EFI

### Electronic Fuel Injection

The whisper-quiet Yamaha petrol engine for golf cars features a 4-stroke, EFI petrol engine. The quietest and cleanest-running powerplant in the petrol category, it produces ultra-low emissions and a noise output of just 60.5 dB.

QT

### Yamaha-exclusive QuietTech technology

The whisper-quiet Yamaha petrol engine features an extra power unit insulation and technology exclusive to Yamaha. This engine is the quietest and cleanest-running powerplant in the petrol category. With a noise output of just 60.5dB, it's almost as quiet as an electric model.

LI

### Lithium-Ion Batteries

With Yamaha developed Lithium-Ion batteries, you benefit from greater driving range, a faster charge and faster speeds due to reduced battery weight. This zero maintenance battery type provides longer battery life - up to 8 years.

IRS

### Independent Rear Suspension

Stability and comfort at every angle. With added comfort, premium shock absorption, and superior stability, golfers can now enjoy the smoothest ride yet.

FLA

### Trojan Motive T-875 batteries

With six 8-volt Trojan Motive T-875 batteries, the tough, long-lasting and well-proven batteries provide the power to keep your golf car running through even the longest golfing days.

ASD

### Automotive-style dash

The modern and stylish automotive-style dash provides golfers with more room for accessories such as cell phones and range finders. The design provides more occupant and legroom space for the golfers for greater comfort.

YTX

### YamaTrack® Compatibility

The YamaTrack® gives your course the capability to evolve with the modern golfer. With a 10" interactive touchscreen mounted in the dash, players will enjoy 3-D terrain graphics with customizable pro tips, accurate distances and the option to order food and beverages. Owners and operators will be able to maximize efficiency and direct traffic through unlimited use of geo-zones.

## YamaTrack® - Advanced course management

YamaTrack®, Yamaha's very own course management system, gives your course the capability to evolve with the modern golfer. Enhance your players' experience and improve your course's efficiency.

Experience unparalleled course control that improves security and efficiency on and off the course. With unlimited geo-zones, control the speed and car location on your course. A shutdown feature prevents losses by day, and the lockdown feature improves overnight security. You will improve fleet rotation with easy battery and vehicle condition monitoring and optimise course scheduling by easy monitoring of the pace of play.

Take full control of your fleet and experience the real benefits of YamaTrack. Reach your audience with customizable on-screen advertising and increase course revenue by sharing advertising opportunities. With a centralised system, you can manage your entire operation including the pro shop, cart barn and maintenance equipment from any internet-connected device.

YamaTrack. Just another reason why Yamaha is The Easy Choice.™

**GOLF FLEET**

**Your golfers' experience  
just got an upgrade.**

## Drive<sup>2</sup> AC Li

Our Drive<sup>2</sup> AC Li golf car is the first choice for the discerning golfers and course owners. Its sophisticated, powerful 3.3 kW motor and high-performance Roypow® LFP battery provides speed and stamina. Paired with a luxurious, comfortable interior, it delivers an enjoyable ride that makes a statement with style and performance.

An extensive range, fast charging capabilities, battery longevity and reduced maintenance make the Drive<sup>2</sup> AC Li golf car the ideal choice for demanding, hilly courses where speed, stability and staying power are a must for on-course confidence.

This model pairs a super spacious, comfortable and luxury finished interior, with silky smooth acceleration and relaxingly quiet performance. Not only is this great for golfers, it also guarantees ultimate efficiency for course owners, thanks to its low maintenance needs and zero-emissions factor.

Carbon

### Lithium-ion battery power means long-lasting excellence

With the Drive<sup>2</sup> AC Li you'll enjoy superior speed across the course, thanks to the iron based LFP type Lithium-Ion battery's lightweight, plus faster charging and greater endurance, ease of handling and a longer battery life of up to 8 years.

### Smooth suspension optimised for a luxurious ride

Yamaha's suspension is fully independent at the front, and this advanced design uses automotive-style, coil-over shock struts to minimise roll. The fully independent front suspension has also been optimised to complement the lightweight lithium-ion battery for a smooth ride. The latest Drive<sup>2</sup> models also benefit from redesigned longer stroke rear suspension for increased comfort.

### 3.3 kW electric motor

The Drive<sup>2</sup> AC Li models feature the high-efficiency electric motor, widely acknowledged as the most sophisticated and powerful design in its class. The smooth acceleration powers you up to full speed in an instant and delivers supreme hill-climbing ability, making this whisper quiet, zero-emissions vehicle suitable for every environment.

### Larger automotive style dash

The Drive<sup>2</sup> has been designed with the modern golfer in mind and features an automotive style dashboard with conveniently placed stowage space for drinks and personal items. The storage bin with its non-slip mat is ideal for phones, and the optional USB outlets mean players can ensure their devices are kept charged throughout the day.

## Drive<sup>2</sup> AC AGM

Our premium Drive<sup>2</sup> AC golf car is every golfer's dream machine. Its powerful new 3.3 kW motor and high-performance recyclable Trojan AGM batteries make light work of long, hilly courses and together with the outstanding interior comfort, it delivers a soft ride that's simply the ultimate in style and luxury.

Designed for courses where its extensive range and above-average ability to master slopes and steep hill paths with total confidence and sure-footedness will be particularly valuable, the stylish Drive<sup>2</sup> AC AGM is a golf car of unmatched quality.

The combination of an ultra-spacious, comfortable and luxurious interior, with silky smooth acceleration and relaxingly quiet performance is great for golfers, while guaranteeing top efficiency for course owners, thanks to its low maintenance needs. The zero-emissions factor is another key benefit for owners.

Leaf Green

### 3.3 kW electric motor

The Drive<sup>2</sup> AC models feature the high-efficiency electric motor – widely acknowledged as the most sophisticated and powerful design in its class. The smooth acceleration powers you up to full speed in an instant and delivers supreme hill-climbing ability, making this whisper quiet, zero-emissions vehicle suitable for every environment.

### AGM battery power – true high-performance

The recyclable Trojan AGM battery technology in this premium Drive<sup>2</sup> model delivers the performance to keep it running strongly through the longest golfing days, so while the players may get tired, the trusty Drive<sup>2</sup> AC AGM will always last the course. What's more, the low maintenance requirement and end-of-life battery recyclability help the course owner and the environment.

### Larger automotive style dash

The Drive<sup>2</sup> has been designed with the modern golfer in mind and features an automotive style dashboard with conveniently placed stowage space for drinks and personal items. The storage bin with its non-slip mat is ideal for phones, and the optional USB outlets mean players can ensure their devices are kept charged throughout the day

### Supremely comfortable contoured seats

The industry's largest and most comfortable seats feature deep, supportive contours that help to hold occupants in place while on the move. With their generous legroom and spacious interiors, the Drive<sup>2</sup> is designed to accommodate users of all heights and sizes, to ensure that every player enjoys their day to the maximum.

## Drive<sup>2</sup> AC

With its comfortable, quiet ride and powerful 3.3 kW electric motor, the Drive<sup>2</sup> AC golf car just loves hilly, challenging courses. Reliable and sturdy, it is not only smart, but an efficient option for today's golfers – and a great choice for pro-active course owners.

Designed for locations where its mile-eating range and powerful hill climbing talent will be appreciated, the stylish Drive<sup>2</sup> AC is a very attractive, top-quality golf car. Naturally, the usual Yamaha features of durability, easy-maintenance and low running costs will bring welcome business benefits too.

In addition to its spacious, comfortable and luxurious interior, its silky-smooth acceleration and relaxingly quiet performance from the powerful new motor, the Drive<sup>2</sup> AC also offers the benefit of zero emissions – along with two new colour choices on the latest model.

Glacier

### New 3.3 kW electric motor

The Drive<sup>2</sup> AC models feature a new, high-efficiency 3.3 kW electric motor – widely acknowledged as the most sophisticated and powerful design in its class. The smooth acceleration powers you up to full speed in an instant and delivers supreme hill-climbing ability, making this whisper quiet, zero-emissions vehicle suitable for every environment.

### Tough, long-lasting battery power

The tough, long-lasting and well proven Trojan Motive T-875 batteries provide the power to keep this capable golf car running through even the longest golfing days! The golfers might get tired, but they can rely on their trusty Drive<sup>2</sup> AC to always last the course.

### Larger automotive style dash

The Drive<sup>2</sup> AC has been designed with the modern golfer in mind and features an automotive style dashboard with conveniently placed stowage space for drinks and personal items. The storage bin with its non-slip mat is ideal for phones, and the optional USB outlets mean players can ensure their devices are kept charged throughout the day.

### Supremely comfortable contoured seats

The industry's largest and most comfortable seats feature deep, supportive contours that help to hold occupants in place while on the move. With their generous legroom and spacious interiors, the Drive<sup>2</sup> is designed to accommodate users of all heights and sizes, to ensure that every player enjoys their day to the maximum.

## Drive<sup>2</sup> QuietTech EFI

With its low-emission EFI engine and ultra-smooth independent rear suspension (the first-ever in this type of vehicle) the whisper-quiet Yamaha Drive<sup>2</sup> QuietTech EFI golf car delivers amazing luxury and, naturally, a relaxing, peaceful ride.

Powered by a supremely economical, super-smooth 4-stroke Yamaha engine, the stylish Drive<sup>2</sup> QuietTech EFI features extra power unit insulation that allows it to run almost as quietly as an electric model – in fact it produces only 60.5dB. Like we said, whisper-quiet!

With its sophisticated engineering and design, not to mention Independent front and rear suspension, the Drive<sup>2</sup> QuietTech EFI leads the field in golf car evolution and is sure to become a firm favourite with players and course operators around the world.

Bluestone

### Whisper-quiet Yamaha petrol engine

Featuring extra power unit insulation and technology exclusive to Yamaha, this engine is the quietest and cleanest-running powerplant in the petrol category. With a noise output of just 60.5 dB, it's almost as quiet as an electric model - and its ultra low emissions and high fuel efficiency make it the sensible, logical choice for players and operators.

### Independent front and rear suspension

As well as being the quietest petrol golf car around, the Drive<sup>2</sup> QuietTech EFI is also the first in its class to be equipped with independent front and rear suspension. Combine this advantage with its widest-in-class seating and best-in-class legroom and you can see why the Drive<sup>2</sup> QuietTech EFI leads the world in golf car luxury and comfort.

### Larger automotive-style dash

The Drive<sup>2</sup> has been designed with today's demanding golfer in mind and features an attractive automotive-style dashboard with plenty of carrying space for drinks, personal items and mobile devices. The storage bin - with its non-slip mat - is also ideal for keeping other personal items safe and secure.

### Practical and durable body design

The Drive<sup>2</sup>'s modular body design makes it simple to own and maintain, enabling the operator to minimise down time and save service costs. A three-part rear panel reduces repair costs and gives easy access to the engine. The rugged bumpers and durable body panels are built to ensure optimum strength and durability.

## Drive<sup>2</sup> EFI

With its powerful, quiet, smooth-running, low-emission EFI engine and ultra-smooth suspension, the Yamaha Drive<sup>2</sup> EFI golf car delivers an amazing level of luxury and a relaxing, peaceful ride.

Powered by an extremely efficient – and therefore very economical - 4-stroke engine, the stylish Drive<sup>2</sup> EFI runs with all the quiet smoothness you would expect from a Yamaha unit and offers a range of other features that help to make it supremely luxurious and relaxing to drive.

With its sophisticated engineering and design, not to mention the unique comfort offered by its independent front suspension, the Drive<sup>2</sup> EFI leads the field in golf car evolution. That's why it's such a firm favourite with players and course operators around the world.

EFI  
ASD  
YTX

Bluestone

### Clean-running Yamaha EFI petrol engine

Featuring technology that's exclusive to Yamaha, the Drive<sup>2</sup> EFI's engine is the smoothest, cleanest-running powerplant in the petrol category – and quiet too. Its ultra-low emissions and high fuel efficiency make it the sensible, logical choice for players and operators.

### Larger automotive-style dash

The Drive<sup>2</sup> has been designed with today's demanding golfer in mind and features an attractive automotive-style dashboard with plenty of carrying space for drinks, personal items and mobile devices. The storage bin - with its non-slip mat - is also ideal for other personal items and with the optional USB outlet, players can ensure that their mobile devices stay charged throughout the day.

### Practical and durable body design

The Drive<sup>2</sup>'s modular body design makes it simple to own and maintain, enabling the operator to minimise down time and save service costs. A three-part rear panel reduces repair costs and gives easy access to the engine. The rugged bumpers and durable body panels are built to ensure optimum strength and durability.

### Stylish looks and enhanced interior

With their stylish bodywork and range of striking colours, the models in the Drive<sup>2</sup> line-up are the most attractive and luxurious Yamaha golf cars we've ever built. Offering the most spacious interior and best legroom in the business, a Drive<sup>2</sup> also comes with the widest, most comfortable seats you could wish for.

# **PERSONAL TRANSPORTATION**

Performance and style  
that lasts.

## Drive<sup>2</sup> PTV PowerTech Li

The Drive<sup>2</sup> PTV PowerTech Li is the ultimate in personal transportation. With class leading power and sophistication, the Drive<sup>2</sup> PTV electric motor is paired with a high-performance Roypow® LFP battery to provide speed and stamina. Enjoy a smooth ride with fully independent front and rear suspension (IRS), a comfortable interior, style and performance.

We have retained the best-in-class seating, luxury and versatility that our PTV models are renowned for and introduced a Roypow® LFP battery that provides up to eight years of life. Our lithium battery has zero maintenance and faster charging, providing an efficient and sustainable solution to your personal transport needs.

The Drive<sup>2</sup> PTV PowerTech Li pairs a pleasingly spacious, comfortable finished interior with silky smooth acceleration and relaxingly quiet performance. It does not just guarantee enjoyment, it also ensures ultimate efficiency thanks to its low maintenance needs and zero-emissions factor, ensuring a sustainable ride for you and your passengers.

### Lithium-ion battery power means long-lasting excellence

With the Drive<sup>2</sup> PTV PowerTech Li you will enjoy superior speed around your property, thanks to the lithium-ion battery's lightweight, plus faster charging, greater endurance and a longer battery life of up to eight years.

### IRS – Independent Rear Suspension

As well as being the quietest powered PTV around, the Drive<sup>2</sup> PTV models are also the first in their class to be equipped with IRS (Independent Rear Suspension) making them supremely luxurious. Combined with the widest-in-class seating and best-in-class legroom, this sophisticated suspension system delivers the ultimate in riding comfort.

### Independent front suspension

Yamaha's front suspension is a fully independent system and the advanced design uses automotive-style, coil-over shock struts to minimise roll. Designed to work together with the sophisticated IRS system introduced on this model, it completes the picture and helps the Drive<sup>2</sup> PTV deliver its unmatched ride comfort and luxury.

### 5.0 kW electric motor

The Drive<sup>2</sup> PTV models feature the high-efficiency 5.0 kW electric motor which is widely acknowledged as the most sophisticated and powerful design in its class. The smooth acceleration powers you up to full speed in an instant and delivers supreme hill-climbing ability, making this whisper quiet, zero-emissions vehicle suitable for every environment.

## Drive<sup>2</sup> PTV PowerTech AC AGM

The Drive<sup>2</sup> PTV PowerTech AC AGM amps up the pleasure of users. Combining outstanding interior comfort and Independent Rear Suspension (IRS), it delivers a comfortable ride. The powerful motor and high-performing Trojan AGM maintenance-free batteries are a winning combination for this PTV (Personal Transportation Vehicle) needs.

Designed with our PTV customer in mind, enjoy the extensive range and the ability to master slopes and steep hill paths with total confidence. The stylish Drive<sup>2</sup> PTV PowerTech AC AGM gives you a vehicle that's ready for anything.

The combination of an ultra-spacious, comfortable interior, with silky smooth acceleration and relaxingly quiet performance provide an amazing experience. Pair this with maintenance-free, recyclable AGM batteries, zero emissions, ultra-bright LED lights and a high-end spec and you have your perfect partner for any application around your property.

Glacier

### Drive<sup>2</sup> PowerTech AC AGM 5.0 kW electric motor

The Drive<sup>2</sup>'s high-efficiency PowerTech AC AGM 5.0 kW electric motor makes it one of the most sophisticated and powerful designs in its class. It delivers a whisper-quiet, silky-smooth ride and together with outstanding range and performance, it ensures that this zero-emissions vehicle is suitable for every environment.

### AGM battery power – true high-performance

The maintenance-free recyclable Trojan AGM battery technology in this premium Drive<sup>2</sup> model delivers the performance to keep it running strongly through the longest day. What's more, the Drive<sup>2</sup> PTV PowerTech AC AGM boasts end-of-life battery recyclability which helps the environment.

### IRS – Independent Rear Suspension

As well as being the quietest powered lightweight vehicles around, the Drive<sup>2</sup> PTV models are also the first in their class to be equipped with IRS (Independent Rear Suspension) making them supremely luxurious. Combined with the widest-in-class seating and best-in-class legroom, this sophisticated suspension system delivers the ultimate in riding comfort.

### Independent front suspension

Yamaha's front suspension is a fully independent system and the advanced design uses automotive-style, coil-over shock struts to minimise roll. Designed to work together with the sophisticated IRS system introduced on this model, it completes the picture and helps the Drive<sup>2</sup> deliver its unmatched ride comfort and luxury.

## Drive<sup>2</sup> PTV PowerTech AC

If you are looking to make the smartest choice, you will see that things don't come any easier or more luxurious than when you take a ride in our latest Drive<sup>2</sup> model.

As soon as you step into this sophisticated PTV you'll feel relaxed in the plush and spacious interior. An automotive-style dashboard features convenient USB ports, along with plenty of handy storage. The intuitive controls make this impressive vehicle very easy to operate.

Once on board, you will notice the smooth, strong power thanks to the ultra-quiet PowerTech AC motor, which delivers a silky smooth ride and outstanding performance. Combine this with our latest IRS (Independent Rear Suspension) system, the Drive<sup>2</sup> PTV PowerTech AC is unmatched on performance and comfort.

Matte Titan

### Drive<sup>2</sup> PowerTech AC 5.0 kW electric motor

The Drive<sup>2</sup>'s high-efficiency PowerTech AC 5.0 kW electric motor is one of the most sophisticated and powerful designs in its class. It delivers a whisper-quiet, silky-smooth ride and together with outstanding range and performance, it ensures that this zero-emissions vehicle is suitable for every environment.

### IRS – Independent Rear Suspension

## UMX AC

Plug-&-Play? No, with the Yamaha UMX AC it's Plug-&-Work! With its large rear cargo bed and spacious front locker, this quietly efficient all-electric workhorse can handle a huge range of tasks, indoors or out. The UMX AC is emission-free of course, as well as being very easy to drive and operate.

At its heart is a punchy 5.0 kW motor that's not just quieter and better for the environment, but has a good range and is simple to plug in and charge. So it delivers smooth, flexible power that'll take you just about anywhere in a park, resort, golf course, farm, airport, factory ... just point and go.

The two ergonomically designed individual seats and variable rate suspension system give a high standard of rider comfort, making this quiet, smooth, comfortable light utility vehicle a real pleasure to work with – and it's ready to work hard for you, almost silently, 24/7.

Carbon

### Aluminium cargo bed with one-touch tailgate

The Yamaha UMX is really built tough, so it's always ready for hard work, day and night if necessary – in any weather. It's designed to carry an impressive payload of tools, equipment and supplies, thanks to its durable aluminium cargo bed, with convenient one-touch tailgate. The spacious bed measures 104.6 cm long x 116.6 cm wide x 30.2 cm deep.

### 2 individual seats and centre console

The UMX features a thoughtfully designed 2-seat interior with a convenient centre console and padded armrests for added security. Combined with the variable rate suspension and wide tyres, this practical layout gives the driver and passenger a comfortable ride, even on less-than-perfect roads and tracks. The open sides make getting in and out of the UMX quick and easy.

### Smooth, punchy 5.0 kW electric motor

At the heart of the nimble and easy-to-maneuvre UMX AC is a punchy 5.0 kW electric motor that's not just quieter and cleaner for the environment, but has a good range and is quick to charge.

### Rugged and durable bodywork

This efficient and quiet workhorse is ready to take on a wide variety of jobs in different environments, and the rugged and durable bodywork is designed to withstand heavy duty usage. Recessed reflector-type LED headlamps emphasize the purposeful looks and the wide tyres spread the load to minimise surface impact.

## UMX EFI

If you're going to do a job, why not do it properly? The tough, hard-working Yamaha UMX EFI is designed to handle a huge range of tasks, indoors or out. With a large cargo bed and spacious front locker, this easy-to-operate utility vehicle is the quick, efficient way to move equipment and supplies.

At the heart of this compact workhorse is a well proven, easy-starting and punchy 400cc EFI engine that delivers smooth, efficient power to take it just about anywhere in a park, resort, golf course, farm, airport, factory ... just point and go

The two ergonomically designed individual seats and variable rate suspension system work together to give a high standard of rider comfort, making this nimble and easy-to-manoeuvre light utility vehicle a real pleasure to work with – and it's ready to work hard for you, 24/7.
